During snow and extreme cold events, check on your neighbors to insure they have heat and water.

Another successful Christmas City in the books. This can only be successful with the help of many community members and organizations.

### Winter reminders:

- No parking on streets during snow removal. Cars may be ticketed. Better access for work crews means faster clean-up times.
- Snow and ice should be removed from sidewalks within 24 hours from the time it ceases to accumulate. Please sprinkle any ice accumulations on sidewalks with sand and/or salt to allow safe travel.
- Keep all fire hydrants clear of snow. In an emergency, every second counts! Three feet (3') of access around hydrants is requested. Remember: emergency vehicles need clear access through streets so be mindful when you park vehicles on the street.
- Please help your mail carrier by clearing snow around your mailbox, if you have one located at the street.
- If your home has a tendency toward freezing pipes in extreme cold temperatures, be sure to leave a small trickle of water run from your faucet.
- Snowmobiles should only travel on approved routes within city limits and not on personal property.

A heartfelt 'THANK YOU' to the Wyoming Area Betterment Corp for all their hard work in sponsoring and organizing the Christmas City Celebration. They put in many hours to help make this a successful event year after year.
